FAR Subpart 19.708(b) prescribes the use of Section I clause FAR Subpart 52.219-9, Small Business Subcontracting Plan. Offerors shall provide a response as specified in FAR Subpart 52.219-9(d), using the clause itself as the outline for the subcontracting plan. Offerors at their discretion may include tables to clarify information requested in the clause. However, failure to include the essential information (e.g., providing required statements, assurances or agreements) will cause a delay in the Plan's review and approval.
